

Shinto.

About.

INTRODUCTION TO SHINTO

Inspired by the iconic shrines of Japan, our thoughtfully-designed Shinto Desk System assembles effortlessly, to create harmonious work spaces.

Shinto offers a large range of components designed to be easily configured in many different ways to accommodate the needs of your environment and the workstyles it will host.

Surface materials are available in a selection of VE Furniture and Laminex timbers and laminates.

Standard in white powder coated steel frame with legs including levelling glides.

This guide contains multiple products from the Shinto Desk System range which have been curated into one specification guide for your convenience.

Note that each product may be subject to different pricing terms and conditions based on finishes selected.

BASIC COMPONENTS

SERIES ONE DESKS

SERIES TWO DESKS

MEETING TABLES

SHINTO COMPONENTS

MATERIALS + FINISHES

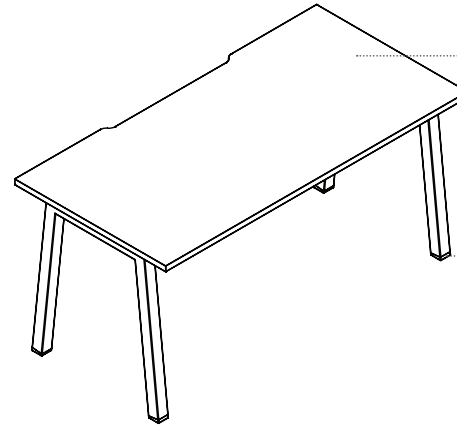

SHIPPING + WARRANTY

Basic Shinto components

Series One comes standard with a single brace, two legs and a single table top.

Series Two comes standard with a double brace, two legs and two table tops.

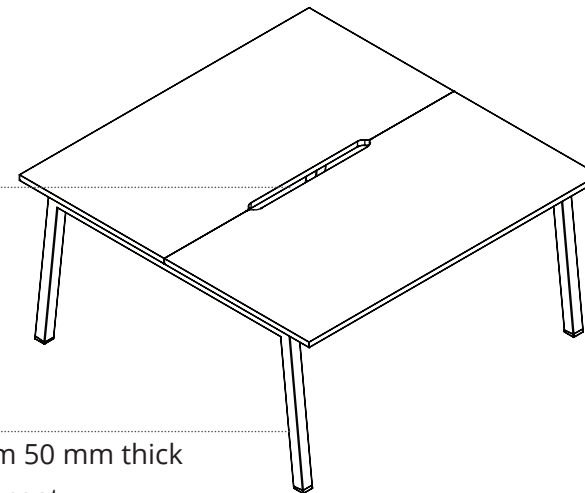

Series Two offers an optional screen mount with a double brace, two legs and two table tops.

Work surface is 25 mm thick with either a raw Birchply edge or ABS edge in matching laminate colour.

Adjustable glides have a 20 mm adjustability range to compensate for uneven floors.

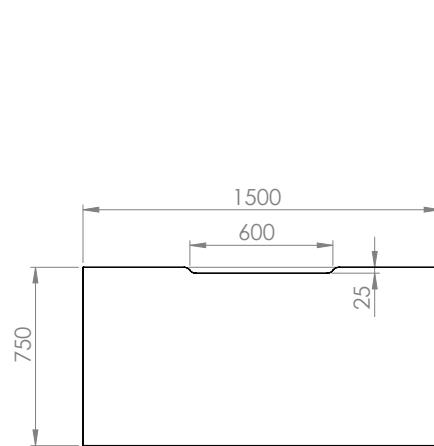

Optional 600 mm cable cutouts allow cords and monitor mounts to pass behind the table top.

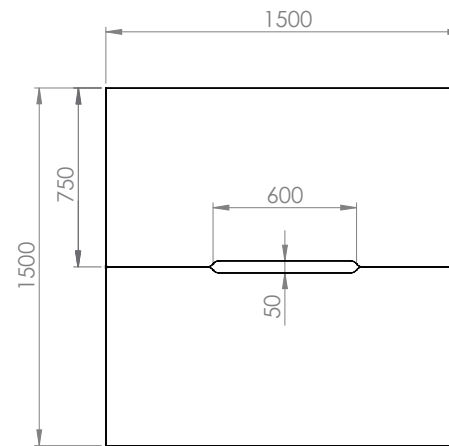

Legs and brace constructed from 50 mm thick steel, standard in white powder coat.

Basic Shinto components

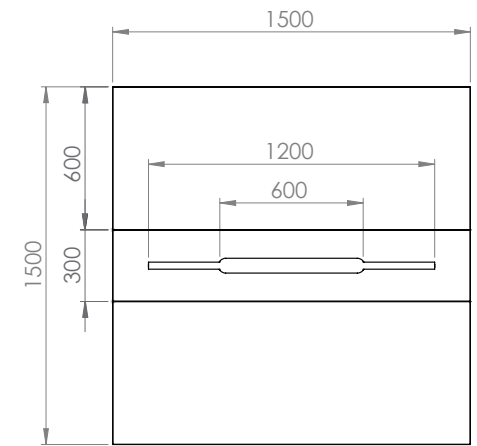

Shinto components are designed to work together to create tailored solutions for your space.

Series One Desk

Series One Desk

Series One and an extra Brace, Leg and Table Top create a workstation for two.

Series Two Desk for Two

D-end Extension

Series Two and two Soft Curve Tops create a conference table for six.

Series One Desks

BASIC OVERVIEW

Series One Desks can be connected unlimitedly, making it easy to expand from a desk for one to an office of one hundred.

Note: power is not unlimited.

Additional power feeds may be needed depending on the number of desks connected together.

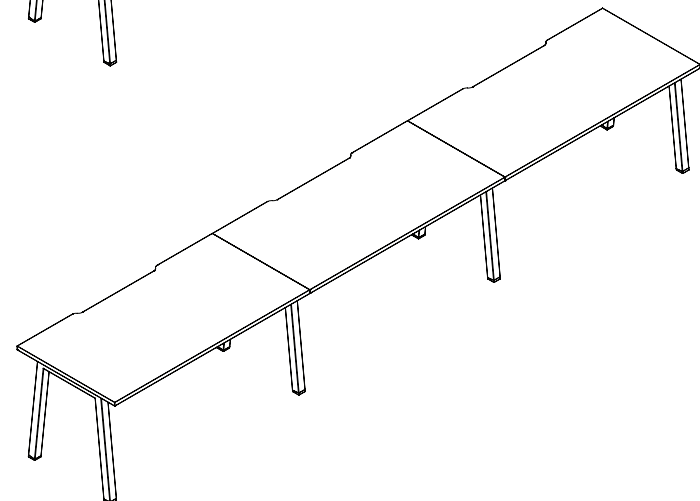

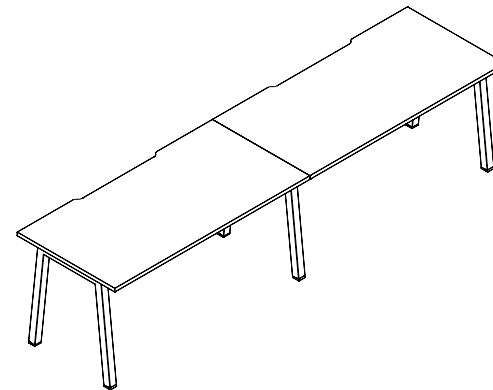

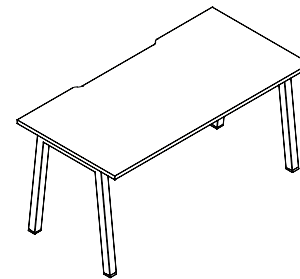

Cable trays are used to hold power supply and general cords. Each cable tray has the ability to provide extra GPO outlets below the table top.

Data port clips can be set into the cable tray and are accessed through the various cable routing openings.

Note: Data cables may need to be run and installed by a qualified data electrician depending on your requirements.

Optional 600 mm cable cutouts allow cords and monitor mounts to pass behind the table top.

Series One Desks can be configured with users sitting next to or across from each other.
